**** EiMa Festival** is usually held for 15 days during the months of July-August and combines workshops, community projects, meetings and professional performances by Balearic, national and international artists working in the field of contemporary dance and movement arts. This year we are in the 7th edition, and have experienced a development in teamwork and community work since 2016.

We propose, from the supposed "cultural periphery", to reverse the typical flows in order to decentralise the artistic activity and to promote and celebrate culture from and in the rural environment.
